

I applied to be a director to reconnect with our industry and community of realtors and affiliates on a deeper level. I believe I bring a unique lens to a director role having worked in this industry for over 15 years holding positions in title/escrow as a sales rep, mortgage lending both licensed and as a business development director and in more recent years serving as CEO for a brokerage, real estate coach and a licensed agent.

I'm a firm believer in giving back to a community that supports ones' individual growth, success and happiness is the right thing to do. In the earlier years of my real estate career, I dedicated many years of service to our association with a large commitment in serving on the board for our community fund creating fundraiser events such as Expect The Unexpected and AmeriTitle Idol, procuring thousands of dollars in support of the community funds mission to support local non-profits in need. These events also created additional opportunities for our real estate industry and local community to come together in support of a greater good. In addition, I have served on several committees of our association and was presented with The President's Award during Don Meyer's presidency.

I look forward to an opportunity, if elected, to contribute and serve our association on a higher level in support of MVAR's collective overarching goals and ideals.
